Computing Machinery

Advancing Computing as a Science & Profession

SACMAT'07

Proceedings of the 12th ACM Symposium on
Access Control Models and Technologies

Sponsored by:

SIGSAC

Table of Contents

SACMAT 2007 Organization	vii
---------------------------------------	-----

Session 1: Policy Management

Session Chair: S. Volkmar (*SAP Laboratories, France*)

• An Approach to Evaluate Policy Similarity	1
D. Lin, P. Rao, E. Bertino (<i>Purdue University</i>), J. Lobo (<i>IBM T. J. Watson Research Center</i>)	
• A Posteriori Compliance Control	11
S. Etalle (<i>University of Twente</i>), W. H. Winsborough (<i>University of Texas at San Antonio</i>)	

Session 2: Access Control in Novel Systems

Session Chair: E. Bertino, (*Purdue University*)

• Enforcing Access Control Over Data Streams	21
B. Carminati, E. Ferrari (<i>University of Insubria</i>), K. L. Tan (<i>National University of Singapore</i>)	
• Fine-grained Access Control to Web Databases	31
A. Roichman (<i>The Open University</i>), E. Gudes (<i>The Open University and Ben-Gurion University</i>)	

Session 3: Privacy Management

Session Chair: S. Barker (*King's College & London University*)

• Privacy-aware Role Based Access Control	41
Q. Ni (<i>Purdue University</i>), A. Trombetta (<i>Insubria University</i>), E. Bertino (<i>Purdue University</i>), J. Lobo (<i>IBM T. J. Watson Research Center</i>)	
• A Privacy Preserving Assertion Based Policy Language for Federation Systems	51
A. C. Squicciarini (<i>Purdue University</i>), A. Hintoglu (<i>Sabanci University</i>), E. Bertino (<i>Purdue University</i>), Y. Saygin (<i>Sabanci University</i>)	
• Distributed Access Control: A Privacy-conscious Approach	61
B. Cautis (<i>INRIA Futurs and U. Paris Sud</i>)	

Session 4: Secure Operating Systems

Session Chair: V. Atluri (*Rutgers University*)

• Towards a VMM-based Usage Control Framework for OS Kernel Integrity Protection	71
M. Xu, X. Jiang (<i>George Mason University</i>), R. Sandhu (<i>Univ. of Texas at San Antonio</i>), X. Zhang (<i>Samsung Information Systems America</i>)	
• Managing the Risk of Covert Information Flows in Virtual Machine Systems	81
T. Jaeger (<i>The Pennsylvania State University</i>), R. Sailer (<i>IBM T. J. Watson Research Center</i>), Y. Sreenivasan (<i>The Pennsylvania State University</i>)	
• A Logical Specification and Analysis for SELinux MLS Policy	91
B. Hicks, S. Rueda, L. St. Clair, T. Jaeger, P. McDaniel (<i>The Pennsylvania State University</i>)	

Session 5: Industry Reports

Session Chair: A. Schaad (*SAP Laboratories, France*)

Session 6: Consistency Enforcement and Secure Grids

Session Chair: G.-J. Ahn (*University of North Carolina at Charlotte*)

• Lightweight Consistency Enforcement Schemes for Distributed Proofs with Hidden Subtrees	101
A. J. Lee, K. Minami, M. Winslett (<i>University of Illinois at Urbana-Champaign</i>)	
• Mesh: Secure, Lightweight Grid Middleware Using Existing SSH Infrastructure	111
P. Z. Kolano (<i>NASA Ames Research Center</i>)	

Session 7: Short Papers: High Assurance Systems

Session Chair: N. Li (*Purdue University*)

- **Multilevel Filesystems in Solaris Trusted Extensions** 121
G. Faden (*Sun Microsystems*)
- **A Formal Approach for Testing Security Rules** 127
W. Mallouli, J. -M. Orset, A. Cavalli (*GET/INT Evry*), N. Cuppens, F. Cuppens (*GET/ENST Bretagne*)
- **New Constructions for Provably-Secure Time-Bound Hierarchical Key Assignment Scheme** 133
A. De Santis, A. L. Ferrara, B. Masucci (*Università di Salerno*)
- **Role Engineering using Graph Optimisation** 139
D. Zhang, K. Ramamohanarao (*The University of Melbourne*), T. Ebringer (*CA Laboratories*)
- **PEI Models towards Scalable, Usable and High-Assurance Information Sharing** 145
R. Krishnan (*George Mason University*), R. Sandhu (*University of Texas at San Antonio*),
K. Ranganathan (*Intel System Research Center*)

Session 8: Short Papers: Access Control

Session Chair: E. Ferrari (*University of Insubria at Varese*)

- **Discretionary Access Control with the Administrative Role Graph Model** 151
H. Wang, S. L. Osborn (*University of Western Ontario*)
- **Inter-domain Role Mapping and Least Privilege** 157
L. Chen, J. Crampton (*University of London*)
- **A note on the formalisation of UCON** 163
H. Janicke, A. Cau, H. Zedan (*De Montfort University*)
- **Formalizing XML Access Control for Update Operations** 169
I. Fundulaki (*University of Edinburgh*), S. Maneth (*NICTA Ltd. and UNSW*)

Session 9: Roles and Policies

Session Chair: J. Crampton (*University of London*)

- **The Role Mining Problem: Finding a Minimal Descriptive Set of Roles** 175
J. Vaidya, V. Atluri, Q. Guo (*Rutgers University*)
- **Specifications of A High-level Conflict-Free Firewall Policy Language for Multi-domain Networks** 185
B. Zhang, E. Al-Shaer, R. Jagadeesan, J. Riely, C. Pitcher (*DePaul University*)

Session 10: Novel Access Control Techniques

Session Chair: T. Jaeger (*The Pennsylvania State University*)

- **Action-Status Access Control** 195
S. Barker (*Kings College London University*)
- **PolicyMorph: Interactive Policy Transformation for a Logical Attribute-Based Access Control Framework** 205
M. LeMay, O. Fatemich, C. A. Gunter (*University of Illinois at Urbana-Champaign*)
- **Towards Realizing a Formal RBAC Model in Real Systems** 215
G. -J. Ahn, H. Hu (*The University of North Carolina at Charlotte*)
- **Chinese-Wall Process Confinement for Practical Distributed Coalitions** 225
Y. Katsuno, Y. Watanabe, S. Furuichi, M. Kudo (*IBM Research*)
- **Using Semantics for Automatic Enforcement of Access Control Policies among Dynamic Coalitions** 235
J. Warner, V. Atluri (*Rutgers University*), R. Mukkamala (*Old Dominion University*),
J. Vaidya (*Rutgers University*)

- **Author Index** 245
