Table of Contents

SACMAT 2008 Organization	vii
---------------------------------------	------------

Session 1: Role Mining

• Fast Exact and Heuristic Methods for Role Minimization Problems.....	1
Alina Ene (<i>Princeton University</i>), William Horne (<i>Hewlett-Packard Company</i>), Nikola Milosavljevic (<i>Stanford University</i>), Prasad Rao, Robert Schreiber (<i>Hewlett-Packard Company</i>), Robert E. Tarjan (<i>Princeton University and Hewlett-Packard Company</i>)	
• Migrating to Optimal RBAC with Minimal Perturbation	11
Jaideep Vaidya, Vijayalakshmi Atluri, Qi Guo, Nabil Adam (<i>Rutgers University</i>)	
• Mining Roles with Semantic Meanings	21
Ian Molloy, Hong Chen, Tiancheng Li, Qihua Wang, Ninghui Li, Elisa Bertino (<i>Purdue University</i>), Seraphin Calo, Jorge Lobo (<i>IBM T.J. Watson Research Center</i>)	

Session 2: Workflow Systems

• Delegation and Satisfiability in Workflow Systems	31
Jason Crampton, Hemanth Khambhammettu (<i>University of London</i>)	
• Enforcing Security Properties in Task-based Systems	41
Keith Irwin, Ting Yu (<i>North Carolina State University</i>), William H. Winsborough (<i>University of Texas at San Antonio</i>)	
• Task-Based Entailment Constraints for Basic Workflow Patterns.....	51
Christian Wolter, Andreas Schaad (<i>SAP Research</i>), Christoph Meinel (<i>University of Potsdam</i>)	

Session 3: Panel on Role Engineering

• Panel on Role Engineering	61
Vijay Atluri (<i>Rutgers University</i>)	

Session 4: Role Based Access Control

• Authorization Recycling in RBAC Systems.....	63
Qiang Wei (<i>University of British Columbia</i>), Jason Crampton (<i>University of London</i>), Konstantin Beznosov, Matei Ripeanu (<i>University of British Columbia</i>)	
• ROWBAC - Representing Role Based Access Control in OWL.....	73
Tim Finin, Anupam Joshi (<i>University of Maryland</i>), Lalana Kagal (<i>Massachusetts Institute of Technology</i>), Jianwei Niu, Ravi Sandhu, WilliamH. Winsborough, Bhavani Thuraisingham (<i>University of Texas at Dallas</i>)	
• UAQ: A Framework for User Authorization Query Processing in RBAC extended with Hybrid Hierarchy and Constraints.....	83
Yue Zhang, James B. D. Joshi (<i>University of Pittsburgh</i>)	

Session 5: Access Control in Distributed Environments

• RBAC Administration in Distributed Systems.....	93
M. A. C. Dekker (<i>Twente University</i>), J. Crampton (<i>Royal Holloway, University of London</i>), S. Etalle (<i>Twente University and Technical University of Eindhoven</i>)	
• Policy Decomposition for Collaborative Access Control.....	103
Dan Lin, Prathima Rao, Elisa Bertino, Ninghui Li (<i>Purdue University</i>), Jorge Lobo (<i>IBM T.J. Watson Research Center</i>)	
• Context-Aware Role-based Access Control in Pervasive Computing Systems	113
Devdatta Kulkarni, Anand Tripathi (<i>University of Minnesota</i>)	

Session 6: Obligations

- **A General Obligation Model and Continuity-Enhanced Policy Enforcement Engine for Usage Control**..... 123
Basel Katt (*University of Innsbruck*), Xinwen Zhang (*Samsung Information Systems America*),
Ruth Breu (*University of Innsbruck*), Michael Hafner (*University of Innsbruck*),
Jean-Pierre Seifert (*Samsung Information Systems America*)
- **An Obligation Model Bridging Access Control Policies and Privacy Policies** 133
Qun Ni, Elisa Bertino (*Purdue University*), Jorge Lobo (*IBM T.J. Watson*)
- **Access Control by Action Control**..... 143
Steve Barker (*King's College London*)

Session 7: Panel on Meta Models for Access Control

- **A Meta Model for Access Control:
Why is it needed and Is it even possible to achieve?**..... 153
David Ferraiolo (*National Institute of Standards and Technology*), Vijay Atluri (*Rutgers University*)

Session 8: Access Control in Systems

- **Measuring Integrity on Mobile Phone Systems**..... 155
Divya Muthukumaran, Anuj Sawani, Joshua Schiffman, Trent Jaeger (*The Pennsylvania State University*),
Brian M. Jung (*Samsung Electronics Co., Ltd.*)
- **Visualization Based Policy Analysis: Case Study in SELinux**..... 165
Wenjuan Xu, Mohamed Shehab, Gail-Joon Ahn (*University of North Carolina at Charlotte*)
- **Model-based Behavioral Attestation**..... 175
Masoom Alam (*Institute of Management Sciences*), Xinwen Zhang (*Samsung Information Systems America*),
Mohammad Nauman, Tamleek Ali (*Institute of Management Sciences*),
Jean-Pierre Seifert (*Samsung Information Systems America*)

Session 9: Policy Analysis

- **Detecting and Resolving Policy Misconfigurations in Access-Control Systems** 185
Lujio Bauer, Scott Garriss (*Carnegie Mellon University*),
Michael K. Reiter (*University of North Carolina at Chapel Hill*)
- **Enabling Verification and Conformance Testing for Access Control Model** 195
Hongxin Hu, Gail-Joon Ahn (*University of North Carolina at Charlotte*)
